Good MPF Employer Award 2016-17

The MPFA has held the "Good MPF Employer Award" ceremony on 26 September to recognise employers who are compliant with MPF legislation and exemplary in enhancing the retirement benefits of their employees. A total of 877 organizations received the award, which hit a record high, indicating that more and more employers became aware of their MPF responsibilities and were willing to provide more retirement benefits to their employees. BOCI-Prudential has received 3 prestigious accolades from the MPFA - "Good MPF Employer", "e-Contribution Award" and "Support for MPF Management Award". We truly understand employers' needs and make consistent efforts to streamline the online services to assist employers with MPF administration by saving them time and reducing the administrative costs.

Hong Kong Digital Brand Awards 2016 – Excellent Brand of MPF Smartphone Apps Award

We are pleased to announce that we have been awarded “Excellent Brand of MPF Smartphone Apps Award” at the Hong Kong Digital Brand Awards 2016 on 19 Aug. The award recognises our credentials of devising excellent mobile app that can assist our clients in managing their MPF accounts through smartphones anytime, anywhere. Our company features a comprehensive MPF services online platform for clients to experience a spectrum of advanced electronic services through excellent online MPF account management app. Not only can our clients easily make MPF account balance/ transaction enquiries, they can submit fund switching instructions online; moreover, they can also use investment analytical tools in the online account to track and compare the latest investment returns at any time; or even set tailor-made online reminders such as Fund Price Alert to seize investment opportunities & consider new investment portfolio. Co-organised by The Chamber of H.K. Computer Industry & Metro Broadcast, the Hong Kong Digital Brand Awards is one of the most creditable awards to qualifying valuable brands with remarkable contribution to the IT industry and the society in Hong Kong. The voting result represents an objective and professional recognition based on end-user preference, as well as media and industry benchmark.
